Stop restating the record

The whole chart becomes one chronological working draft — every line tied to its document.

The clocks, counted right

UR, IMR, QME panel, P&S, PR-2, §4603.2 and §4622, with alerts before they lapse.

Billing that writes itself

Attest the report and the ML200-series charge is drafted, including excess pages and testimony time.

Defend This

Chiron plays opposing counsel against your report — then drafts the rebuttal.
